### CATARRH A SPECIFIC BLOOD IMPURITY

Catarrh is a deep-seated blood dis-ease, one which no amount of local treatment will ever permanently cure. The beneficial effects of washes, sprays, inhalations, etc., are only temporary, and when left off the old condition returns, because the blood is infected with catarrhal matter and impurities. This impure condition of the circulation irritates and inflames the delicate mucous membranes and tissues and produces the well known symptoms of ringing noises in the head and ears, mucus in the throat, headaches, watery eyes, partial deafness, sore throat, general impairment of health, etc. This condition will remain, growing worse as long as the catarrhal matter is allowed to remain in the blood. Being a specific blood impurity, there is only one way to cure Catarrh, and that is to purify the blood. Nothing equals S. S. S. for this purpose. It attacks the disease at its head—in the circulation-and by thoroughly renovating

the blood and cleansing it of all impure matter, makes a permanent and lasting cure of the disease. For forty years S. S. S. has

been recognized purifier, and the thousands of cases of Catarrh it has cured is proof that it is the very medicine needed by those who suffer with this trouble. Book on
